ABOUT ME

Motivated IT professional with a strong background in **data engineering, analytics, and business intelligence**. Experienced in developing ETL processes, building data lakehouse architectures, and designing reporting solutions for the banking sector. Skilled in tools such as **Apache NiFi, Apache Spark, Apache Iceberg, MinIO, Talend, Oracle SQL, and Apache Superset**. Adept at transforming raw data into actionable insights, creating region-based BI reports, and integrating modern open-source technologies into enterprise systems. Passionate about leveraging technology to improve decision-making, with proven experience in data pipeline automation, reporting optimization, and visualization. Holds a BSc in Computer Science from Addis Ababa University and currently working as a Junior Application Developer Officer at Amhara Bank.

WORK EXPERIENCE

AMHARA BANK – ADDIS ABABA, ETHIOPIA

JUNIOR APPLICATION DEVELOPER OFFICER, AUXILIARY APPLICATION DEPARTMENT – 08/01/2025 – Current

- Analyze and generate regular business reports using Oracle SQL.
- Design and implement ETL processes using Talend Open Studio for Data Integration.
- Working on the bank's data lakehouse project using Apache NiFi, Apache Spark, Apache Iceberg, MINIO, Dremio and Apache Superset.
- Collaborate with cross-functional teams to ensure data quality, accuracy, and performance.
- Enable bank users to access dashboards and reports through the SEAL reporting platform.
- Create and manage region-specific reports to support operational and strategic decision-making.

INFORMATION TECHNOLOGY TRAINEE – 24/11/2023 – 07/01/2025

- Analyzed and generated regular business reports using Oracle SQL.
- Designed and implemented ETL processes using Talend Open Studio for Data Integration.
- Collaborated with cross-functional teams to ensure data quality, accuracy, and performance.
- Enabled bank users to access dashboards and reports through the SEAL reporting platform.

UI DESIGNER – RDX DELTA RABBIT TECHNOLOGIES – 15/03/2023 – 04/05/2023 – ADDIS ABABA, ETHIOPIA

- Developed UI designs based on client requirements.
- Collaborated with developers to translate design concepts into functional interfaces.
- Conducted design reviews to improve the final product.
- Ensured responsive design across web and mobile platforms.
- Maintained design consistency and enhanced overall user experience (UX).

EDUCATION AND TRAINING

05/11/2025 – 17/02/2026

AI MASTERY TRAINING PROGRAM 10 Academy

Website https://10academy.org/

13/06/2025 – 18/08/2025

PYTHON FOR DATA ANALYTICS AND VISUALIZATION Udemy

Website https://shrturl.app/bseozh

17/10/2024 – 22/12/2025 Addis Ababa, Ethiopia
DATA ANALYTICS IData Technology Center

Website https://shrturl.app/CAQWEv

14/08/2023 – 18/08/2023 Nairobi, Kenya
SPECTRUM MANAGEMENT FOR FINAL-YEAR DEGREE FEMALE STUDENTS International Telecommunication Union

Website https://shrturl.app/fzcHsJ

29/10/2019 – 19/07/2023 Addis Ababa, Ethiopia
BACHELOR OF SCIENCE IN COMPUTER SCIENCE Addis Ababa University

Website https://shrturl.app/MhJto5 | **Final grade** 3.52

LANGUAGE SKILLS

Mother tongue(s): **AMHARIC**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C1	C1	C1	C1	B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

Technical Skills

oracle SQL | Talend Open Studio for Data Integration (ETL) | Apache NIFI | MINIO | Apache Spark | Apache Superset | Power Query ,Power BI | Python: For Data Analysis | Python Libraries (Numpy-Pandas-seaborn-Matplotlib) | Django | Next js | TypeScript | BoostrapCSS, TailwindCSS | FrontEnd: HTML, CSS, JavaScript

Other Digital Skills

Microsoft Office (Outlook, Excel, Word, PowerPoint)

PROJECTS

09/2024 – CURRENT
Bank Data Lakehouse

Working on a comprehensive data lakehouse solution for the bank, integrating advanced tools to enable seamless data analytics and reporting.

- **Data Ingestion:** Utilizing Apache NiFi to extract, transform, and load data from the T24 banking system into MinIO for centralized storage.
- **Data Storage:** Configuring MinIO as the data lake engine, ensuring efficient management of large-scale, S3-compatible data storage.
- **Data Processing and Transformation:** Employing Apache Spark to process and transform raw data into structured formats such as Parquet and CSV for analysis and loading it into an Oracle SQL data warehouse in table format to meet specific business requirements.
- **Data Visualization:** Building interactive dashboards and reports using Apache Superset to support the bank's reporting needs and decision-making processes.
- **Collaboration and Automation:** Enhancing cross-departmental collaboration and automating workflows to improve efficiency and enable data-driven insights.
